

Frontlines of basic research: Doctoral students present their research

Doctoral students writing a thesis in the field of economic history are invited to present their research in this session. All topics of research in the field of economic history are welcome. The presentations can cover anything from planned to ongoing or recently completed thesis projects. Take the opportunity to meet doctoral students from other departments, at the same time as presenting your research for a Scandinavian audience.

Suggested presentation titles (and preferably also an abstract) can be sent to Klas Rönnbäck, klas.ronnback@econhist.gu.se. The deadline for suggestions is May 31, 2021.
